Level 2 Certificate in Understanding Autism

Course Overview

Autism is a condition which presents itself as a wide spectrum of disorders and can be affected differently, with cases ranging from mild to severe.

Throughout this qualification, learners will gain an understanding of the different spectrum of autistic disorders and how they can affect people in a variety of ways, as well as explore the importance of using a person-centered approach to provide support. Learners will also understand how to use appropriate communication skills and positive behavior to encourage individuals with autistic spectrum conditions to live fulfilling and independent lives.

Level 2 Certificate in Understanding Autism

Who is suitable?

This course is suitable for anyone who wishes to develop their understanding of autism and the principles of supporting individuals to live healthy and fulfilled lives. The course will benefit anyone working, or looking to work, with individuals who have an autistic spectrum condition.

What you will learn

This course is split into four manageable units:

Unit 1: Signs, indicators and diagnosis of autism

Unit 2: Sources of information and support, legislation and policy relevant to autism

Unit 3: Living with autism

Unit 4: Best practice relating to autism
