# Level 2 Certificate in Understanding Behaviour that Challenges in Children

## Course Overview

Many children tend to display aspects of behaviour that challenges at some point in their lives, but most eventually develop the necessary skills to grow out of this. However, some children (especially those with a learning disability, sensory issues or a mental health condition) may not develop these skills without the appropriate help and support, and therefore may continue to display behaviour that challenges.

This course will equip learners with a detailed understanding of behaviour that challenges in children, including how such behaviour can be assessed and the avoidance techniques that can help minimize the effects of behaviour that challenges. Learners will look at how different coexisting conditions, such as a learning disability, a mental health condition, sensory issues and autism can impact on behaviour that challenges and how to support those children who experience these complex behaviours.

## Level 2 Certificate in Understanding Behaviour that Challenges in Children

### Who is suitable?

This qualification is aimed at anyone who wishes to develop an in-depth knowledge of behaviour that challenges in children in order to progress into related employment in education or health and social care settings. Anyone who currently works in the education and health and social care sectors would also benefit from the course, as well as anyone with a personal need for, or interest in, more detailed knowledge of behaviour that challenges in children. This qualification is suitable for learners aged 19 or above.

### Learning Method

Studying via distance learning means you can choose when and where you study.

This course is available:

 **FULLY ONLINE**

### What you will learn

This course is split into six manageable units:

**Unit 1:** Awareness of behaviour that challenges

**Unit 2:** Principles of intervention when working with behaviour that challenges in children and young people

**Unit 3:** Behaviour that challenges and mental health in children

**Unit 4:** Behaviour that challenges and learning disabilities

**Unit 5:** Behaviour that challenges, sensory issues and autism

**Unit 6:** Legislation supporting behaviour that challenges in children

### Benefits

- Gain a nationally recognised qualification
- Create a long-standing career pathway within the education or health and social care sector
- Courses are delivered as distance learning, allowing learners to choose when and where to study
- Personal tutors are assigned to ensure learners have the support needed to succeed
