Level 2 Certificate in Understanding the Care and Management of Diabetes

Course overview

There are more than three million people currently living with diabetes in the UK, and experts predict that this number will reach five million within the next 12 years. As the prevalence of diabetes continues to increase, it is crucial that the people affected become fully aware of how they can adapt their lifestyles to monitor and manage the condition effectively.

By completing this course, you will not only gain a nationally recognised qualification, but will also improve your understanding of the different forms, causes and risk factors of diabetes, becoming aware of the best way to manage, monitor and control it.

Level 2 Certificate in Understanding the Care and Management of Diabetes

Who is suitable?

This course would benefit anyone currently working, or looking to work, in the healthcare sector who wishes to learn more about the different types of diabetes, and demonstrate a willingness to care for people living with the condition.

Learning method

Studying via distance learning means you can choose when and where you study.
